Development stage/lead investigator/project title.	No. of projects
Published	6
Dr Nicola Burch The effect of dietary factors and vitamin supplementation on polyp size, frequency and dysplasia in a regional colorectal cancer screening cohort	
Kelechi Nnoaham Do geodemographic typologies explain variations in uptake in colorectal cancer screening? An assessment using routine screening data in the South of England http://jpubhealth.oxfordjournals.org/content/early/2010/04/21/pubmed.fdq025.abstract	
Marie Coughlin Reaching Sensory Impaired People: Good Practice Communication Guidelines – Project 2	
Prof Rosalind Raine Hub analysis of inequalities in BCSP participation by post code	
Professor Stephen Halloran 1) Evaluation of immunochemical devices suitable for the national screening programme 2) Evaluation of the effectiveness of current automated immunochemical test devices for detecting blood from subjects with haemoglobinopathies	
Completed	4
Anne Miles, Dennis Wright, Jane Wardle To determine the demographic and psychological predictors of uptake of FOBt screening in the borough of Camden and Islington	
Dr Siwan Thomas-Gibson Does regular use of ScopeGuide give endoscopists applying for BCSA an advantage	
Julie Tucker A qualitative investigation exploring factors that influence non engagement of individuals, with the NHS Bowel Cancer Screening Programme, during round 1 and their subsequent engagement in round 2	
Prof David Weller Developing Primary care based strategies to increase uptake of bowel cancer screening in ethnic minority and lower income groups	
Underway	16
Aslam, Pringle, Singh, Jameson Circulating MicroRNAs are Novel Biomarker for Colorectal Cancer Screening	

Dr Colin Rees

Barriers to Uptake of colorectal cancer screening BUCCS

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=8936>

Dr Ewen Cameron

A study to pilot the recruitment of a cohort of individuals at risk of colorectal cancer through the NHS BCSP

Dr Matthew James Brookes

Is the tumour suppressor APC crucial to iron mediated colorectal carcinogenesis

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=9016>

Dr Siwan Thomas-Gibson

Endoscopic Non-Technical Skills (ENTS) a qualitative study of human factors in gastrointestinal endoscopy

Miss Nimarta Dharni

Explaining Varied Uptake of Bowel Cancer Screening in South East London; Exploration of Ethnic and Socio-Economic Variation

Mr Austin Obichere

Colorectal cancer screening with colonocyte derived DNA analysis

Paul Hewitson

Public perceptions of bowel cancer screening - A Primary Care-based intervention for improving patient participation in bowel cancer screening (pilot study and RCT)

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=6103>

Prof Julietta Patnick

Bowel Screening Follow-Up Study (2)

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=10711>

Prof Rosalind Raine

To reduce the socioeconomic gradient in uptake of bowel cancer screening: The ASCEND project

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=10587>

Professor Ian Tomlinson

Genetic predisposition to serrated neoplasia (PRESENT)

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=9340>

Professor Mark Hull

seAFood polyp prevention trial

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=9734>

Professor Stephen Halloran

Study of the effectiveness of the current FOBt screening algorithm

Professor Sue Wilson

1) Diet and physical activity to prevent recurrence of high risk adenomas: a feasibility study

<http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=8451>

2) Evaluating the effectiveness of GP endorsement in increasing participation: feasibility trial to improve participation in the NHS Bowel Cancer Screening Programme

Submitted**10****Dr Clodna McNulty**

Piloting molecular diagnostic methods for Extended Spectrum Beta-Lactamase Producing Coliforms (ESBLPC) in bowel cancer screening cards.

Dr Matt Rutter

Development and Prospective Evaluation of A Nurse Assessed Patient Comfort Score (NAPCOMS) For Colonoscopy

Julietta Patnick

Bowel screening follow up study

Matthew Banks

A Randomised Controlled Trial to Compare 2 optical technologies in Colorectal Cancer Screening – Multisite evaluation

Paul Hewitson

Primary Care based intervention to improve participation for non-respondents to the NHS Bowel Cancer Screening Programme

Prof Wendy Atkin

Is annual faecal immunochemical occult blood testing a feasible, safe, acceptable and cost-saving alternative to colonoscopy surveillance for the diagnosis of advanced adenomas and early stage CRC in patients found to have colorectal adenomas?

<http://www.controlled-trials.com/ISRCTN18040196/>

<http://www.hta.ac.uk/2337>

Professor David Weller & Dr Christine Campbell

The influence of a negative FOBT on the response of screening invitees and healthcare providers to symptoms of colorectal cancer

Professor Robin Spiller

UK Diverticular Disease Network Website

Ruth Ayling

The Use of M2-Pk As Part Of A National Bowel Cancer Screening Programme

Tomlinson, East, Leedham

Biomarkers Of Colorectal Cancer Risk In the NOrmal bowel (BOCCARINO)
